TEXAS IS READY FOR WAR

ASKING THE PRIVILEGE OF RAISING REGIMENTS OF TROOPS.

Editor Cutting in Court, but on Advice of Our Counsel Refuses to Employ Counsel or Permit It to be Done—Other Mexican Outrages Continue to Light.

EL PASO, Tex., July 30.—There are no developments whatever in the Cutting case. Cutting is still in jail and it looks as if he is apt to stay there quite a long time. My complaints are heard here at the deliberate action of the American government. People fear that the question will be discussed by the diplomates of the two countries until everybody loses interest in it.

Thursday night, Cutting was aroused from his sleep and carried before Judge Costello, although it had been freely pretended that the question had been referred to a higher tribunal. He was told that he was simply in jail, and that he was simply in the hands of his government. He was told that he was simply in the hands of his government.

He was then sent back to prison. Yesterday morning he was again called up and informed that he was not a lawyer in regular practice. Commissioner Brigham has received a letter from Minister Jackson, saying that he had no doubt that the nation about Cutting would be settled in a few days.

War Feeling in Texas. PORT WORTH, Tex., July 30.—Reports received from all over Northern Texas show that the feeling is everywhere of a menacing character. Local military companies are drilling in nearly every town in the state and the war feeling is universal. Yesterday a telegram was received from El Paso, which after a long delay proved to be a canard, stating that Cutting had been taken from jail and shot.

The report spread like wild fire. Knobs of men collected to discuss the situation. Some of the best citizens acted like wild men and were ready to go to the front at once. This warlike feeling throughout the state can be accounted for by the fact that Texas merchants who have any dealings with Mexico have been invariably mistreated and beaten in their transactions. There are many Mexicans in Texas, but all of them are of the lowest class, and are looked upon as worse than negroes.

Volunteers in Waiting. AUSTIN, Tex., July 30.—The adjutant general has received applications for permission to raise volunteer regiments in case of war with Mexico. He also received information that the Mexicans are reinforcing the garrison at El Paso. The adjutant general is reaching there Friday, and 15th September with more expected daily. Uncle Sam has only one company at El Paso in charge of Fort Bliss.

Another Mexican Outrage. AN AMERICAN CITIZEN ARRESTED AND KEPT IN PRISON WITHOUT CAUSE. DALLAS, Tex., July 30.—The Cutting outrage has brought the attention of an American citizen, which has heretofore been kept quiet through fear of injury to an American firm by its exposure. The case is that of E. H. Fleming, of this place, who has been engaged as an agent in Mexico for a large agricultural implement firm. About two weeks since Fleming was arrested on the plaza at Lugo, he was approached by a policeman, who asked him where he was going. Mr. Fleming replied that he proposed taking the stage next morning for San Luis Potosi. "Smor," said the policeman, "I am directed to take you before the alcalde."

When brought into the prison, the official he was first deprived of his watch, chain, rings and clothing, except his trousers and shirt, and then the alcalde ordered that he be cast into prison. Mr. Fleming asked what was the offense with which he stood charged with, but received no other reply save a threatening stare. He then stood on his rights as an American citizen, but this only provoked a smile. At the prison, filled with robbers and infamy, he was cast into a cell as poorly ventilated as the "Black hole" of Calcutta, and there was allowed to remain eight hours, when the Americans in the morning hearing about it, raised a storm about the alcalde's ears and succeeded in gaining his release.

HUBERT O. THOMPSON. Federal Services Over His Remains in New York City.

The funeral tributes were given by Rev. Dr. Seward, of which, from the employees of the department of public works, being especially benefited. At last night the remains were borne out of the Worth house to Trinity Chapel close by. Fully 4,000 people were assembled in the vicinity of the chapel.

The pallbearers, as follows: Mayor Grace, Secretary William C. Whitney, E. E. Anderson, Judge Allen, and others. The funeral service was held at Trinity Chapel, where a special train conveyed the party to Woodbury. The body was buried with Masonic honors.

THE CHICAGO ANARCHISTS.

The State Has Introduced Nearly All Their Evidence in the Trial.

CHICAGO, July 30.—Mr. Grinnell announced this morning that the state has introduced nearly all their evidence in the trial. He is to be tried to-morrow evening.

Dr. John R. Murphy, who attended many of the wounded officers at the Dearborn street station, was examined, and described at some length the peculiar nature of shell wounds received by the police.

E. J. Epley, a county hospital physician, testified that he dressed Fielden's wound about midnight on the night of May 4. Fielden told him he was reviving and was trying to get away, when he got the wound.

Mr. M. Thompson, whom the defense said Fielden wanted, testified with the view of impeaching his testimony given Tuesday, was put on the stand. Mr. Foster examined the witness briefly, without eliciting anything new, and with evident disappointment with the impeachment process.

Lieut. Bowler then took the stand and produced a package of clothes which he had taken from the officers on the night of May 4. The bloodstained garments were taken out and exhibited and offered in evidence. Capt. Schaeck, who has been previously identified with the capture of Anarchists, dynamite and bombs, then ascended the witness stand.

He testified of Ling's statement that he was to be taken to the captain to have bombs and used them. Ling said he was down on the police, because they clubbed him at McCourt's house. He adopted these statements because they were more potent than revolvers. He had learned how to make bombs by reading Herr Rook's book "Ling's dynamite."

He said he had seen the gas pipes, he said, he found mostly in the streets. All the bombs that he made had been found.

ENGLAND'S NEW CABINET.

LORD SALISBURY ANNOUNCES HIS PROVISIONAL TENDER OF OFFICE.

The Appointed Officers Have Accepted the Positions Offered Them—How the Appointments are Received—Comments of the Press—Other Foreign News.

LONDON, July 30.—The following provisional tenders of office in the cabinet have been made by Lord Salisbury, and the persons named have signified their willingness to accept the positions:

Home Secretary—Lord George Hamilton. Secretary for Ireland—Sir Michael Hicks-Beach. Secretary for War—Lord Cranbrook.

President of the Council—Lord Salisbury. Secretary of the Admiralty—Lord Salisbury.

The appointment of Lord Salisbury as secretary for foreign affairs is applauded by every one, even the moderate Liberals admit that the present cabinet is the best that has been for some time.

The appointment of the Marquis of Londonderry as secretary for Ireland is by no means marked. Lord Salisbury described the marquis, who was at that time a commoner sitting as Viscount Castlereagh, as a very promising young nobleman, but of what service the marquis has given promise no one seems to know.

The Freeman's Journal ridicules his appointment, characterizing the marquis as in all respects about the most useless type of his species, but admits that he has merits as a figure head, and that this is the general verdict.

It is commonly known, and his wife, who is a sister of the present Earl of Shrewsbury, is handsome and clever. She is famous in London as a society hostess, and probably the most extensively photographed woman in the metropolis. Both the Marquis of Londonderry and his wife are friends of the Prince and Princess of Wales.

Continuing in his comments on the appointments, present and prospective, the Freeman's Journal stands against the prospect of having Sir Michael Hicks-Beach for chief secretary for Ireland, and describes him as a cold-blooded, snake-like creature, who has never enlisted the sympathy of anybody.

RUNAWAY ACCIDENT.

Dr. W. W. Bliss Injured by Being Thrown From a Huggy in Cleveland.

CLEVELAND, O., July 30.—Dr. W. W. Bliss, the physician who attended President Cleveland, has arrived in this city. He is here on professional business. He rode out with Dr. Weber, and they were run away from the Superior street. The team they drove belonged to Columbus Delano, of Mt. Vernon, secretary of the interior, and was sent to this city to be sold during the summer. Dr. Bliss was a very spirited span of young thoroughbred.

Dr. Weber took the horses out to try their speed with a view to buying them. Dr. Bliss was driving. A boy driving a horse in a two-wheeled cart ran into their buggy, frightening the team, which dashed along Superior street, and Dr. Bliss, seeing that his strength was insufficient to stop the horses, gave the reins to Dr. Weber, but their united strength was not enough to check the runaway.

In front of Case's block they ran into a wagon. The horses were thrown down and the buggy was badly broken. Dr. Weber was unhurt, but Dr. Bliss received severe bruises on the right leg and arm, and the jar of the sudden stop caused him to spit blood from his mouth.

The accident was stopped just long enough for Dr. Bliss to be taken to the hospital. He has been suffering from heart disease for a few years past, and thought that while the team was running away the shock would surely kill him.

INSANE WOMAN KILLED BY A TRAIN.

FRIDAY EVENING JULY 30, 1886.

A BILL restoring 570,000 acres of land to the public domain has been passed by the House of Representatives.

NONE of the Republican candidates are as well qualified for the positions to which they aspire as the Democratic nominees.

The indications are that Congress will pass a law authorizing the issue of silver certificates of small denominations, one two and five dollars.

ROBERT C. JONES, of Mt. Sterling, has sued J. M. Bigstaff, of Montgomery County, for \$50,000 damages for slander. Bigstaff is a prominent citizen of that section.

A SPECIAL from Lexington says the Government has instructed Collector Robinson to revoke the commissions of some of the Storekeepers in this district. There are more than the Government requires.

In 1880, Lexington had a population of 10,400. This has increased to 23,000 at the present time. The increase is attributed to the completion of railroads, which afford inducements for the location of manufacturing enterprises.

It is thought at Louisville that C. P. Huntington is trying to get control of the Louisville, New Albany and St. Louis Railroad. Huntington says he hopes to have a homogeneous line to run long, connecting Chicago, St. Louis, Cincinnati and Memphis with Newport News.

THE COURT of Claims of Madison County has refused to allow any money for the support of paupers outside of the poorhouse. The Clark County Democrat thinks it a good move, and pertinently remarks that "as a general thing, when money is appropriated for paupers among their friends, the county's charity is squandered among a parcel of relatives who are able but not willing to work."

COLONEL JOHN A. JOYCE recently spent several weeks with friends in central Kentucky. He has returned to his home at Washington, and in a letter written back to one of his friends expresses his conviction that he could soon settle all the lawlessness in Rowan, if the opportunity was only given him. He says: "If Proctor Knott resigns his office in my favor for just thirty days I'll guarantee that I'll secure a permanent peace in Rowan County, if I have to kill off forty of each faction. In other words the way to put down a mob is to kill the leaders and kill the followers, and if anybody is insulted over this harshness of the state authorities, kill them and give the balance of the people a rest. The way to have peace is to have war, and you can get your 'bottom necktie' that were in Governor Knott's place there would soon be a dead Governor or a pile of dead mountaineers who have usurped the power of Kentucky and are a law unto themselves."

Splendid Work. The splendid work which Mr. Manning has accomplished as the head of the Treasury Department is being revealed now that the end of the fiscal year has been reached. During the year, the debt has been decreased \$96,097,766. The actual decrease was \$44,612,286, but at the same time the cash in the Treasury was increased \$51,485,479. The gold in the vaults has increased \$36,494,853. During the sixteen months of the Cleveland administration the debt has been reduced \$116,575,430, and this notwithstanding the hard times. Mr. Manning found a net balance of \$8,764,590, and now there is a balance of \$51,191,109. No Republican administration of the Treasury Department can begin to compare with this of Mr. Manning. The debt has been reduced, the balance increased, and the alleged danger from an over-coinage of silver dollars has been averted. We commend these interesting figures to the consideration of our Republican contemporaries. They show that the finances of the country are eminently safe in Democratic hands.—New York Star.

As Old Citizens Speak.

Mr. J. M. Norris, an old resident of Rome, Ga., says that he had been badly troubled with kidney complaint for a great many years and with excruciating pains; at times could scarcely walk and had tried many remedies without benefit, until he began taking Electric Bitters and anointing his hands and feet with Bucklen's Arnica Salve. This treatment afforded him great relief and he strongly recommends Electric Bitters to all who suffer with kidney complaints, or need a Blood Purifier. Sold by J. C. Pecos & Co.

A Question

Often asked, but seldom answered satisfactorily: "Is there a remedy known to the medical profession that will allay the sufferings peculiar to women who are subject to Dysmenorrhea and its attendant discomforts?"

Ladies
If you have not tried it, do so AT ONCE. There is relief for you; it has been found in

Tongaline

Read what an eminent physician has to say upon the subject:
"I have derived particularly gratifying results from the use of Tongaline in Dysmenorrhea. In the case of a lady of rheumatic condition, and a chronic sufferer from this disease, who had been driven almost to the verge of insanity by her monthly sufferings, its action has been most satisfactory. It relieved her promptly, and she now enjoys the sweetest periods with but little discomfort. I could mention other cases of similar character, but this is a remarkable one."

Allain, daughter of a member of the Louisiana legislature, and Prof. Palmerston Landry, of Mansfield college, another legislator. The bride's father, originally a slave and coachman, bore in those days the name of Sonlouque. Theophile Allain. Every prominent negro politician in the United States was invited to this event, and nearly all sent presents.
